CoolJect with Targeted Mist™ is a cost-efficient, fast-acting, topical anesthetic.

1-833-COOLJCT • Sales@VapoCoolShot.com • www.CoolJect.com

A-001 Rev.1

Fast, effective, lower cost topical anesthetic for injections

- Reduce waste and lower cost
- Anesthetize quickly and accurately
- Reduce patient discomfort

Why Targeted Mist™ matters

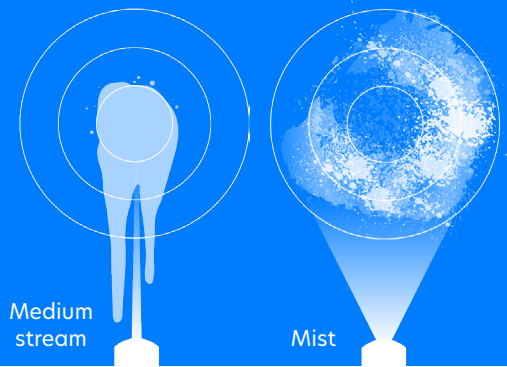

Proprietary nozzle provides gentle, even coverage and faster anesthetization of the specific area where you intend to inject, avoiding unnecessary and excessive coverage, thus reducing waste of contents.

COOLJECT
Targeted Mist™
Precision comfort

Others miss the mark

Create a mess
Anesthetize inconsistently
Leave a larger footprint
Waste resources

Shown to use up to
50% less gas
per second
